

101 ALUMNI QUARTERLY

APRIL 2024 • ISSUE 56

Happy New Year to All - Shelley Taylor -

Happy New Year to all! With the new year comes a leadership change with the Alumni Association. We have a new President, and I am happy to report it will be a familiar face to all – Ken LaPolla.

This group could not be in finer hands and I am excited to serve on the board under his leadership.

We also made some updates to our governing documents and have expanding the size of our board.

Please join me in welcoming our new board members:
Carmine DelliQuadri Jr.

Jeff Faulk
Max Hoover
Matt McCracken
Tammy Price
Chris Stringham

Why the changes? We are the stewards of Troop 101 - past, present and future and in order to represent you, we needed a variety of voices at the table.

Thanks to everyone for their support over the past two years.

Where was Q1? From The Editor - Matt McCracken

It's been a few years since we started the Alumni Quarterly. 2009... Sometimes seems like only yesterday. Jim Potjunas asked Ed Byers to write a newsletter, and I provided the digital format. It was a great way to keep Alumni informed on what's happening in the Troop, and what fellow Alumni have been up to.

I rarely receive feedback on the newsletters. Are you out there? In recent issues, I have asked our readers to e-mail us and tell us how you're doing. What are you up to?

So, I'm putting this out on Page 1. In 2023, I failed to get a Q1 issue out. Issues throughout the year also delayed each quarterly newsletter by weeks, or Months as I scramble to find content worthy of release. The same was true for this year. Q1 2024 didn't have enough content to release, and I decided to push that content to this issue... which is releasing weeks after I planned. :)

So, I'm asking for your help. I'd love to keep putting these issues together, but I am in desperate need of content writers. If you can reach out to your fellow Alumni friends to share what they've been up to since

leaving, and how Scouting has impacted their lives, I would appreciate it greatly.

Not a writer? That's ok! Use those communication skills, gather all the information and I'll help write the story. I just need help getting them.

Lastly, what do you think? Do you enjoy the Alumni Quarterly? What can we do better? How can this newsletter bring value to your day.

So, a Late Happy New Year from me, and hope you enjoy this issue of the Alumni Quarterly.

I look forward to hearing from you.

Alumni Board

Ken LaPolla	President
Jason Paisley	Scoutmaster
Charles James	Committee Chair

Jeff Faulk	Director at Large
Max Hoover	Director at Large
Chris Stringham	Director at Large

From the President

Ken LaPolla, Alumni Association President

Springtime 2024

It was great seeing many of you at this year's spaghetti dinner and I want to personally thank you for your support and continued support. Stacey DelliQuadri and her team did an outstanding job once again. Our "secret recipe" is well known in the area and is something we all look forward to. Jason, the

scouts were polite and attentive as always.

First, before I go any further, I must thank Shelley for her leadership, incite and generosity. You have made an impact on the Association and set us in a direction that will keep us together well into the future.

Second, it's good to see the troop continuing the great program we have always provided. It is hard to believe that Summer is quickly approaching and with it

brings Summer Camp and the "Currents and Caverns" (Whitewater and Caving) trip. But these trips are a financial stretch for some of our families. Our mission, as an alumni association, is to ensure that all scouting opportunities remain available to all of our families.

As my wife is fond of saying with her school fund raising, "every drop fills the bucket." And by every drop, we mean every drop. No amount of financial support is too small. Whether through fund raising or direct support, we are focused on helping our scouts get to camps and trips such as these.

If you would like to help sponsor a scout or two, let us know and we'll be happy to direct your support to someone in need. Either way, "every drop fills the bucket." And it goes without saying, "our gratitude runnith over."

-Ken

Congratulations Commander Todd

Todd Talstein, Eagle #89

Squadron Team 15 announced in February the promotion of Todd Talstein. Todd is Eagle Scout #89, and was congratulated in a post as follows:

"A HUGE congratulations to our executive officer, Cmdr. Todd Talstein, on his promotion to commander! Thank you for your continued leadership, guidance and mentorship at team 15.

May you always have more

fingers on your hands than bars on your shoulders."

The Alumni Quarterly last checked in with Todd in 2013 for our 15th issue. You can find that issue on the Troop Website.

Congratulations, Todd.

I want to let every know that we are an ambitious Troop. It's been a few months and it seems like old times with all of the outings and patrol meetings and such. With 2023 coming to at an end, I can see the Troop is holding steady. We've had great trips from Wright Patterson Air Force Base to Algonquin Canada and everywhere in-between. With all of these trips the Scouts are gaining more experience and leadership. January, we headed to Custalogatown in Pennsylvania and with the weather finally cooperating, we finally got to go snowtubing this year. Mount Pleasant in PA was a very nice and family-owned place we would like to visit again.

We had a great time at the Winter Event Klondike this past February. Again, it was at Camp Stambaugh in Canfield and the camp staff did an excellent job with the planning and execution of a nice event. The Scouts did a fine job setting up and cooking. The events went well and once again they came home with what they thought were the top prizes. Mountain Dew and Yoo-Hoo drinks. I haven't had a Yoo-Hoo in 25 years and the victors offered us adults some of their winnings. It was surprisingly good. Thank you, Scouts.

March was a personal favorite of mine. I remember years ago doing this trip several times from Nelson Ledges to Chickagami. The boys got to explore the rocks and paths. We couldn't in good conscience go camping in March here in northeast Ohio without some crazy weather. After the two hours at Nelson Ledges, we decided to make the six-mile hike to Chickagami in a complete 42-degree rain storm with some wind just for good measure. Typical. The Scouts and adults setup tents and some of the younger Scouts stayed in an Adirondak shelter for the first time. Little did they know that it started storming again but in the form of two and a half inches of fresh snow. It seems the last time some of the older alumni camped at Chickagami, we were in bottomless canvas tents lying on straw. Hopefully you remember holding the aluminum poles in your hand to get them apart or if you were lucky to still have a fire to help get a frozen pole to cooperate. I hope these young Scouts remember the difficult ones. Those are the ones I remember best and helped me make the next ones easier and more fun. After some trying weather, it was well rewarded

Ambition is Key

with pancakes and sausage from the Parkman Community House. It was a good time by all.

Also, in March we had our 47th Annual Spaghetti Dinner. It was nice seeing some of our Alumni at the dinner. It was good to talk to several of our Eagles and their families on Palm Sunday. I would like to give a thank you to the DelliQuadri family and volunteers for all of their work and efforts for the Spaghetti Dinner. Thank You.

April is no different. With James Price's term coming to an end, Sam Watkins, our newest Eagle, has taken over. He and the PLC have planned the next year in campouts and six months of demos and game. We are headed to Tuscazoar Scout Camp in the Canton area. We are going to stay in Hoover Lodge at the camp and the boys are in for a "Great Race" themed campout.

We are back at the building for another six months and with some technological advances to our building Matt MacCracken and others have had game and movie nights on our new big screen tv and other screens. It's quite a modern facility now and one to be proud of.

So that is what has been going on and always preparing for the future. Mohican State Park for some canoeing in May and Family Camp in June. Summer camp of course is always in July and Currents and Caverns in August near Ohio Pyle Pennsylvania.

Well, there is always something going on and things to do at the Troop. If you are in town and have a moment to visit. We'll be at the Scout Building on Mondays from 7:00 to 8:30 as usual. We'll see you there.

SPL Exit Interview

James P. passes the torch to Sam W.

James! Welcome back. You ran for SPL twice, your first term being the Summer of 2022. As we discussed then, being an SPL can be the most challenging job in the Troop. What motivated you to run for SPL a second time?

Since my last term, I feel I have learned more about being a leader and wanted to challenge myself to be better than last time. I also wanted to have one last term before I age out later this year.

What Camping trips were you most looking forward to?

There were a whole bunch I was looking forward to. The Thanksgiving campout at Seven Ranges in November and all of the great food, the trip to Custalogatown in February and getting to go snow tubing were two I really enjoyed.

You worked staff at Manatoc. Do you think that impacted your term?

Definitely! Working at Manatoc gave me a great insight in composing both myself and my program to make sure it provides the best experience to others.

I got to meet new scouts, and learn from their example, while growing as a leader.

Did anything challenge you during this term?

One of the most difficult challenges was working on the restructuring of demos and trying to get into a proper swing with them.

We're moving away from the lecture style demos where guys sit and listen, to more interactive ones where they can do stuff.

I feel like we handled the challenge really well, it took a few tries but I feel like we made the term as fun filled as we could.

How was the PLC this term?

I feel like my plc was amazing. They worked well with me, did things relatively on time, and listened to constructive criticism from all fronts. I'm proud of all the work they put in this past term.

first term with Dr. LaPolla, and your second with Mr. Paisley. How did that go?

It was definitely different working with Mr. Paisley than it was with Dr. LaPolla. That's not a bad thing at all. Having different personalities and backgrounds, they both provided me with a vast well of knowledge that I could take from and put my own spin on, it definitely helped the term.

Mr. Paisley gave me a lot of different knowledge and information and overall, it was good working with him. With both, I learned a lot about working with others, being a sort of boss and also got good at making a great plan for both campouts and meetings.

Anything help you plan this term?

I took some inspiration from earlier SPL terms that worked really well. If I or my PLC couldn't think of any ideas, they wanted to do at a campout I would look at past campouts and see if any ideas interested them.

My first term helped me work with my PLC, and I was able to draw more inspiration from that term, and others I've experienced to see what worked, or didn't.

Overall, how do you feel your term went?

I feel like my term went excellently. I'm not going to say it was the best ever, but it definitely was really, really good, for both the scouts and the PLC.

The ASM assistance I got was great. They gave advice for campouts and meetings, helped upkeep our building, and in some cases organized campouts and events.

What's next?

I plan on wrapping up my Eagle project over the summer, while working at Camp Manatoc. I will continue serving the Troop as Quartermaster until August when I age out.

I plan on using my SPL term to help me be a better counselor at Camp Manatoc. It should also help me in the future as I peruse a electrical trade. I hope to continue helping the Troop as an ASM, and am looking forward to going to Philmont in 2025.

Any advice for future SPL candidates?

Definitely do it. If you are thinking that you want to run for SPL, at least try to. There's no harm in it and you may even win too. It's an experience you'll be glad you tried.

Reaching for the Summit

Christopher McMahan, Eagle #153 Soars to the Summit

Alongside Scouts BSA is another program aimed for an older audience. Started in 1998, Venturing is a co-ed program for those 14-20 years of age. The ideas of personal growth, service to others, and the fun of the outdoors are all key factors in the Venturing program. Through it, Venture Scouts are provided an opportunity to go out and experience the world, learn from one another, and grow as

individuals.

Activities for Venturing Scouts can include Rappelling, Designing Robotics, Kayaking, Volunteering, and more. It is a youth-led and youth-inspired program that focuses on activities for an older audience.

Through the ALPS program (Adventure, Leadership, Personal Growth, and Service), Venturing doesn't focus on Advancement, but it is an option. Within the program, the highest award offered is the Summit Award. It is given to Venturers who serve their crew as leaders, mentor others, and design and lead a service project.

Over the last few years, a Troop 101 Eagle Scout, Christopher McMahan #153, set his sights on reaching the Summit. Earlier this year in a special board of review at Camp Manatoc, Christopher successfully passed his board of review, becoming a Summit Award Recipient in Venturing through Post 2300.

As the Troop congratulates Christopher, we also wanted to sit down and ask him about this prestigious award.

AQ: Christopher, what made you want to go for the Summit Award?

Christopher: Following my time in the Troop while I was involved in the Order of the Arrow, I learned about the Venturing program and its opportunities. Following this I reached out to an adviser from the

Summer Camp staff post and learned that I could advance in the program through the Summer Camp crew. From that moment on I was hooked and began my Trek to the Summit.

AQ: How did Venturing work with you being in Troop 101?

Christopher: I started getting heavily involved with Venturing in 2021. By this time, I was 18, and was less involved as a Scout in Troop 101, but was now an adult leader. Having been on Staff since 2019, I learned that my Scouts BSA activities and programs could count towards advancement in Venturing.

This allowed me to focus on my Venturing experiences as its own adventure while being able to still do stuff with the Troop as a bonus. Being able to use Troop activities towards Venturing requirements is a huge benefit for those in both programs.

AQ: What was your favorite project as a Venture Scout?

Christopher: While working on my trek to Summit, I began to look for ways to be involved in the Council Venturing Officers

Association, (CVOA). I worked with the current members to update and create a new communications program and refined website. This included branding, a newsletter, and tools for future CVOA members to use. I had a blast working with fellow energetic youth leaders and hope to see the tools in use someday.

AQ: Tell us about your service project?

Christopher: For my Summit project I worked with St. Joseph Hospital in Warren to refurbish and clean the Prayer Garden at the Cancer Center. I coordinated in getting equipment and people to the site as we had to replace all the old benches that were

located around the garden and then clean and power wash the entire place. We made sure to clean all the statues and dedication rocks with care to remove the dirt, moss, and general growth on all the rock features and paths. I had an amazing team of volunteers from both the Troop and my Crew. Without their time and help I would never have been able to do what we accomplished together.

AQ: What's this I hear about you restarting Venture Crew 101?

Christopher: After having been given the experience of Venturing myself I want to give this opportunity to youth in our Troop and local community. I am currently planning on engaging interests from youth members in the Troop along with some of our college reserve leaders who would still be considered youth in the Venturing program. I will also be engaging adults to help fill adviser positions in the crew. My hope is to relaunch Venture Crew 101 in the summer of 2025.

AQ: Any words for those considering trying Venturing?

Christopher: Venturing has been an amazing experience. It is similar to the Scouts BSA program, but at times completely unique in its opportunities. Through my experience working to earn my Summit, I have had the chance to meet so many amazing people from different scouting backgrounds. I have

made lasting friendships and learned more about leadership and planning.

I feel I've gained more value and appreciation for the service I provide to my community, and have learned a lot about myself in the process. It's great seeing how far I have come in the program from where I started. Looking to the future on what I plan to do, I can't help but be excited.

I loved every second of my Venturing experience and I recommend it to anyone. Setting off on adventures and making memories is what I strive to do and Venturing did just that and those who try it too I feel would say the same.

50th Reunion Update - By Matthew McCracken

As a young scout in Troop 101, I remember thinking how far away our 50th Anniversary seemed to be. After all, I was joining Troop 101 during its 25th anniversary. Amazing to see that it's finally here... does that make me old now?

With our 50th Anniversary approaching, we asked you what dates seemed to work best in 2025. From all the feedback and votes we received; the Alumni Association has decided we will be hosting the 50th celebration over Labor Day weekend. That's Saturday August 30 or Sunday August 31.

From feedback, many Alumni are looking forward to activities being held at the Jim Potjunas Troop 101 Scout Center at Blessed Sacrament. Early plans have us doing games and activities during the day, a Dutch Oven cooking contest, a catered dinner, and Campfire program. What ideas do you have?

If you didn't take our survey, be sure to head over and make sure we have your latest contact information. You can scan the QR code to the left, or head over to Troop101.net/?v=Reunion to give us your contact information and enter comments for what you'd like to see during the reunion.

As the Reunion Committee puts together plans for the reunion, we will be sure to update you in the next Alumni Newsletter and on our Facebook page. So stay tuned!

Troop 101 Spring Merch Sale

Proceeds to help offset Philmont Costs

The final days of the Spring 2024 Merch Sale are here. In just a few days, the presale for Troop Branded items will come to a close. We've been advertising it on our Facebook page for a while, but if you're just hearing about it now, act quick! While we may have some patches available after the sale ends, if you want to get a new hat or bag those are items only available during the preorder. If you miss out, be sure to check back in the fall for

Just head on over to the Troop Website, or use the Quick link (Store.Troop101.net) to get to the sale and place your order today!

When the sale ends, we'll place our order for the merchandise and have them available in just a few weeks. Proceeds from the sale are going to help offset costs for the Philmont 2025 trip, so thank you for your support.

Special Merch For the 50th

Looking through some of the Troop Historian boxes, we came across some neckerchiefs that celebrated the Troop's 20th Anniversary. For the 50th, we're looking to do the same. We will be ordering special neckerchiefs featuring our 50th logo. There will be 3 border variants. A yellow border version for Adults, a red border version for First Class and above, and a blue border for everyone else.

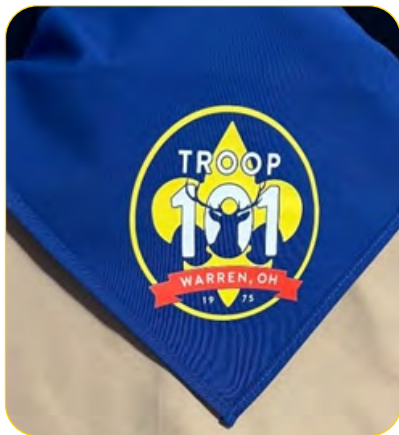

Our goal is to provide these neckerchiefs to all scouts later this year. Each will be presented their special neckerschief that they can wear for all of 2025.

We are also starting to run low on our current supply of Troop 101 neckerchiefs. So, to celebrate turning 50, we will be getting new neckerchiefs with the updated Troop Logo! The current plan is to have this as a patch, as opposed to the screen printing we've been getting, a preview of what it will generally look like is on the left.

You're probably wondering... how can I get one! And, I don't blame you. They look really sharp. Just head over to the Troop Store to order yours today (Store.Troop101.net). While the general merch sale ends soon, we will be accepting orders for the neckerchiefs until June 1.

So - don't delay and order yours today!

Those that select shipping will receive them by mail later this year. For those planning on picking them up, you may do so at any Monday Meeting or Alumni event after November

Philmont 2025

Something tells me that you've heard of Philmont... but, just in case you weren't aware. Philmont is a property owned by the Boy Scouts of America in New Mexico. It is one of the High Adventure bases that the National council operates, and is considered the premiere adventure base among them.

Over the years, several from 101 have made the journey out west. Some have gone to participate, and others have gone to work. The most recent trek was in June 2019 when a crew of 4 adults and 8 young men went for the adventure of a lifetime.

That trip was led by Cole Kuszmaul, who was graduating College at the time. 2018 saw Wildfires and 2020 saw COVID closing Philmont, so 2019 ended up being a fortunate time for the Troop to attend.

More recently, Cullen Faulk has worked out at Philmont as a Ranger for the past two summers. For the 2025 trip Christopher

McMahan will be leading the group to Philmont after graduating spring of 2025 from Xavier University.

For 2025 the Troop is sending 2 full crews. 7 adults and 17 young men. We already have three people on the waiting list!

The cost per person this year is \$2,600. That includes meals, travel, souvenirs, and the Philmont fee. Hopefully we've done the math and will be close to our budget next year. Unfortunately, some costs are outside our control and while we hope things won't go up, that seems to be the trend, lately.

For those interested in donating to help cover unexpected costs on the Philmont expedition, please head to the Troop Website and click the [donate button](#). We'll feature more about the trip in an upcoming issue when the treks are announced and the crew starts voting on their adventure

Alumni Business News

Let us know what your Alumni-owned Business is up to!

In this issue, I wanted to highlight some Alumni Businesses making headlines or doing great things!

Cockeye BBQ and Creamery, which has been featured multiple times saw Eagle Scout Max Hoover, #139, and family opening a new manufacturing plant for the creamery. Max plans to use the new manufacturing plant, located on Chestnut Avenue in Warren to expand the sale of it's premium Ice Cream.

Cockeye BBQ opened their restaurant in 2016, and the creamery in 2019.

Congratulations, Max!

Ben Hoover, Eagle Scout #148 is also back in the family game. He is currently working at the BBQ business while preparing to open his own

restaurant, Franky's Pizza & Delicatessen. We'll feature more on the restaurant when it's closer to opening later this year or early 2025.

Another business in the area, run by the parents of Eagle Scout #160, Ottavio Musumeci is celebrating 38 years this year in Youngstown, Ohio.

Station Square Ristorante is considered one of the area's premier Italian Restaurants. It has been recognized by Wine Spectator Magazine with multiple award's of excellence. Chef Ottavio and wife Bridget purchased the restaurant in 2001. Their son, Ottavio, earned his Eagle Scout in 2019.

The restaurant features Live Music on Thursdays, and is an excellent stop for those coming into town. Congratulations on 38 years!

Alumni can let us know about their business by emailing newsletter@troop101.net

We look forward to hearing from you!

From The Order - Welcome new Inductees

On February 26 the Troop held it's annual Order of the Arrow election.

This year 8 young men were elected into the Order. We look forward to when they can complete their induction weekend and become full members of the order.

Congratulations Bran D., Beau F., Ben H., Alex K., Nick L., Robert S., Hunter S., and Landon W.

Upcoming activities for the Order of the Arrow include the Section E-13 Conclave in May. This event will take place at Camp Manatoc where Marnoc Lodge will be hosting.

Organizing a Legacy Scout Building Organization Efforts

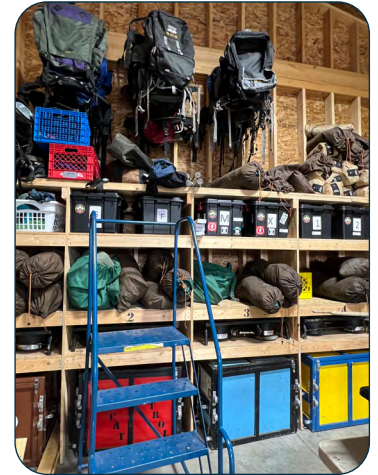

If you haven't been in the Scout Center lately, we've been making some changes. With the help of Assistant Scoutmasters Chris Stringham, Steve Namola, and Committee members Bonnie Namola and Harley Hoff V, the Equipment area of the building is seeing great improvements!

No longer are items stored in various secondhand boxes and broken totes, but in brand new containers labeled for convenience. New shelves have also been constructed to help in the organization efforts, and we've even rerouted electrical cables to ensure safety and better access.

50 years of equipment and history can be a lot to manage, and ensuring we have things stored correctly and well-maintained can ensure those

items will make it to the next generation of scouts.

The cleaning and organization efforts are never ending, but check out these photos! Shows how we're ensuring the quality of program can continue for years to come.

Spaghetti Dinner Thank You

Troop 101 successfully ran its 44th annual Spaghetti Dinner on March 24, serving over 700 dinners!

Eagles' Wings also held its annual Basket Raffle, and a 50/50. There were a ton of awesome baskets!

Thank you to everyone that made it out to Support the Troop, and we look forward to seeing you all next year.

Change is Coming

National BSA announces changes to program

For Scouts BSA, one of the largest changes coming is involving Youth Protection. Youth Protection is the greatest concern of the Boy Scouts of America. To help ensure Youth Protection policies are being observed, it has been decided that YPT certification will expire annually.

The Great Trail Council is also being more thorough in checking that all campers attending campouts on Council properties are registered and in good standing with the Troop. While there has always been checks on this information, they are enforcing it by requiring a Roster exported from Scoutbook, the National BSA's system of record.

The Cub Scout program is seeing some major changes in how youth are identified. Webelos 1 and Webelos 2 are gone. Now there is only one level of Webelos, and it's considered is a fourth-grade program only, beginning the day they leave the third grade.

The day after they leave the fourth grade, they may begin working on their Arrow of Light, and are considered Arrow of Light scouts. This takes effect on June 1, 2024 and has resulted in several online videos to help explain the changes.

Summer Camp 2024

Manatoc 101'st Summer

We have to celebrate, right!?!?

Last year Manatoc celebrated it's 101'st Summer Camp program. Of course, that makes this the 101'st summer, and the Troop couldn't help but find a way to make it special.

With inspiration from the 100th anniversary patch set, Harley Hoff V designed the patch you see here in the Alumni Newsletter. Every scout will get one of these patches to help celebrate the Camp's 101st.

The actual theme for Summer Camp this year will be "The Future is Now".

Another nice thing about the program this year is while the cost of camp has risen to \$415 per scout, the Alumni Association is helping make it affordable for our families. In addition, the Troop offered an incentive to Scouts selling 20 or more Spaghetti Dinner tickets, helping bring the cost back to a very affordable amount. The generosity of our Alumni helps assure that every scout will be able to attend campouts, regardless of their financial background.

We look forward to attending camp this year, and to gather more memories in the camp we know and love. In addition, it's great to know

Wood Badge Comes to Stambaugh

Wood Badge comes to Camp Stambaugh!

Not sure what Wood Badge is? Well, the Wood Badge course is an internationally recognized leadership development course, with leadership skills taught that are equal to or better than any current leadership training in the industry today.

It is designed to use indoor and outdoor settings to help guide and instruct leaders to better work with their unit and council. You can apply the teachings of Wood Badge to make the program better. It takes place over 2 weekends.
